

**LECTURER POSITION AVAILABLE**  
**Department of Biochemistry & Biophysics**  
**Texas A&M University**

The Department of Biochemistry and Biophysics, in the College of Agriculture and Life Sciences at Texas A&M University invites applicants for a full-time Academic Professional Track Faculty at the rank of Lecturer to instruct classes in genetics. This is a non-tenure track position with a 9-month academic appointment with the possibility of renewal annually. The anticipated start date is June 1, 2023 to prepare for teaching for the Fall semester. This position is defined as a teaching position but can include service work by participating on committees as deemed appropriate by the department head. The successful candidate will be offered a competitive salary and an office within the Biochemistry and Biophysics Building at Texas A&M University in College Station, TX.

**General Duties:**

Responsibilities for this position include teaching at the undergraduate level, and service to the department, university, and the field of genetics.

**Requirements:**

Ph.D. or equivalent degree in genetics or molecular genetics is required. Prior teaching experience and familiarity with online teaching is desirable. Other experience should include demonstrated excellence in teaching, ability to function in an interdisciplinary program involving faculty, staff, graduate and undergraduate students from diverse backgrounds, computer and communication skills, and the ability to multi-task and work cooperatively with others.

**Application Instructions**

Applicants must submit 1) a comprehensive curriculum vitae, 2) two-page statement of teaching plans relative to this position, and 3) contact information for three expert individuals who can provide a critical evaluation of the applicant's qualifications. The application materials must be submitted online at: [apply.interfolio.com/118630](https://apply.interfolio.com/118630)

Review of applications will begin March 1, 2023 and will continue until the position is filled.

All positions are security-sensitive. Applicants are subject to a criminal history investigation, and employment is contingent upon the institution's verification of credentials and/or other information required by the institution's procedures, including the completion of the criminal history check.
